The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1, 3-5, 7, 9-11 are rejected under 35 U.S.C. 102(a) as being anticipated by Katayama et al (6, 310, 372).

Katayama shows in figure 1-4 a semiconductor chip having substrate 3 with an integrated circuit (IC) and a shield 4 on a side of said circuit and wherein said shield is at least one of optically and electrically shielding the IC (see col.11, lines 27-33). Said shield is at least one of a conductor (see col. 11, lines 62-64). The substrate is identified as SOI (see col.11, lines 23-25) having a bulk silicon layer 3, a body silicon layer 6 and an insulator 7. Said conductor is disposed on said bulk layer and a via electrically connecting to conductor the said bulk and body silicon layers by way of interconnect 11.

Claims 1, 3-5, 7, 9-11 are rejected.

Claims 2, 6, 8, 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication should be directed to S. V. Clark at telephone number (571) 272-1725.
